

**Bright Kitchen Power** is an exclusive *TRA-owned* energy aggregation program designed exclusively for members of the Texas Restaurant Association.

### **Just One Call Gets You....**

#### **Bid for Services**

- Collect site and account information (LOA and Client datasheet)
- Review client usage data received from TDSP
- Manage client expectations (savings, cost containment, risk mitigation)
- Consider all viable pricing options (From Fixed to Market-Based options)
- Develop a Tactical Energy Procurement Strategy
- Prepare and distribute an exclusive representation “Bid for Electricity Services”
- Review responses
- Assist client in choosing a provider that best meets their needs and requirements

#### **Manage Existing Contracts**

- Track usage and supply costs
- Verify billing and contract compliance
- Track energy market indexes and TDSP rates
- Perform billing audits, budgets and cost/savings analysis
- Actively manage account additions and deletions
- Data Management Available

#### **Evaluate and Refine**

- Determine optimal contract types as the market changes (i.e. track forward market curve in comparison to current agreement)
- Consider how market events impact client’s operating expenses
- Look for forward opportunities to lower price when market conditions are favorable

#### **Manage Renewals and Addendums**

- Provide Portfolio Management Services such as Add and Meter Deletes, as needed.
- Provide new construction support services, assisting with meter sets, clearances, permitting and move ins (MVI)
- Look for opportunities to blend and extend agreements if optimal
- Provide notice and renewal provisions of expiring agreements
